Universal Export 2022

External Report

We at Universal Export, being a B2B business, pride ourselves in manufacturing sustainable products for our clients and take one step further by using a renewable source of energy for all our productions. Located in the southern part of the United Kingdom aim to provide the best services to our retail consumers to inflate their business across the globe. In 2022, Universal Export excelled in stabilising the profit margin even after being affected by various instances going around in the Kingdom such as post COVID-19 period , fall of governments, quietus of the Queen , recession period and many more. The Company reclaimed its spot of being one of the top exporters of unlabelled products by manufacturing around 108 products for the year 2022 and exporting it to around 22 countries around the globe . Products maintained their stature of styling and making a comfort of being suitable for all weather conditions over the year .Our Liabilities continue to lie in our manufacturing products, influencing various categories of Hoodies, Cardigans, Jackets,T-shirts, Polo Shirts etc. Apart from this, we continue to partner with your Logistic Companies, aiding us to transport your goods by various means. As concerned, this year we are joining hands together for implementation of a new sustainable commitment by reducing the number of Air shipments making a helpful contribution towards the environment.

Financial Outcomes

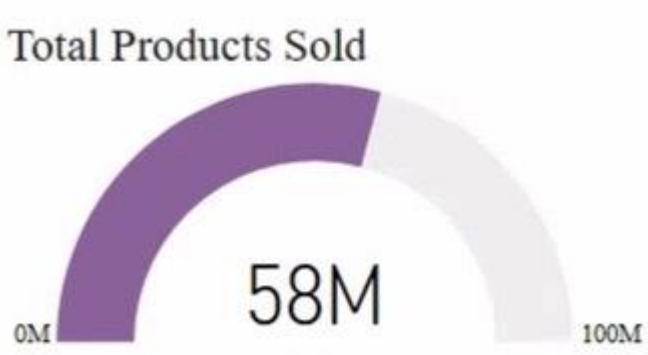

Figure 1.1.1

Figure 1.1.2

In 2022, Universal Export was successful in merchandising utmost products to concerned retail consumers that later decreased in a number of quantity as an effect of a rise in COVID-19 cases which imposed strict guidelines on production and exports of goods followed by a fall of irregularity in governments during August 2022 which indeed conceded to recession over the country imposing heavy taxes on exporting goods. But it stigmatised the company in generating

rescue income over these merchandising orders to recover the losses faced during the past two years.

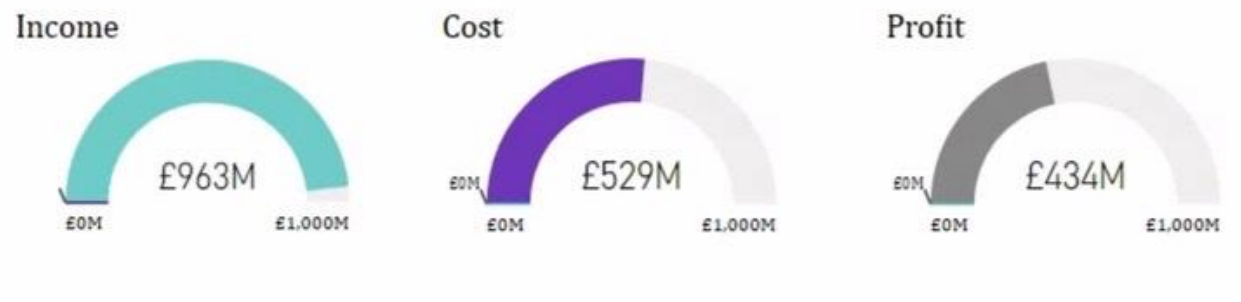

Figure 1.1.3

Figure 1.1.4

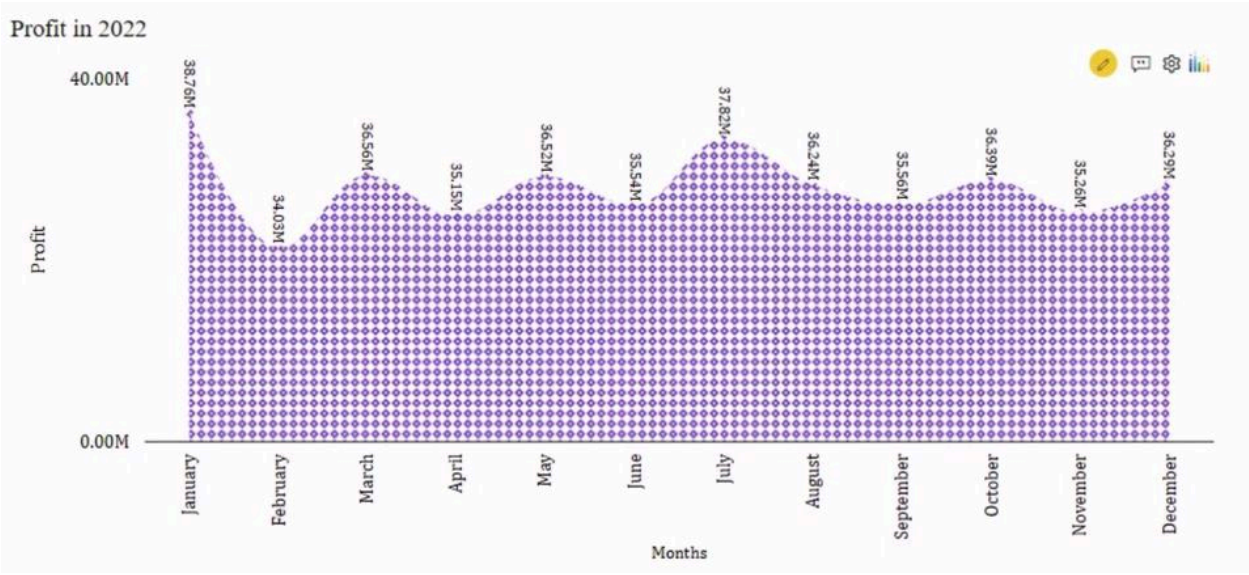

Figure 1.1.5

The company performed in a stabilised manner, obeying the consistency in its performance over the period of 2022. The plummets in the period are the effects shown due to heavy imposition applied on the goods by the governing governments leading to less purchases in that period of time , but later in the mediaeval of the year due to attenuation of sustainability and impositions of new government rules for exports moved the company in a more stable position of acquiring profits around £434 M and making a gross revenue of £963 M annually .

Products Overview

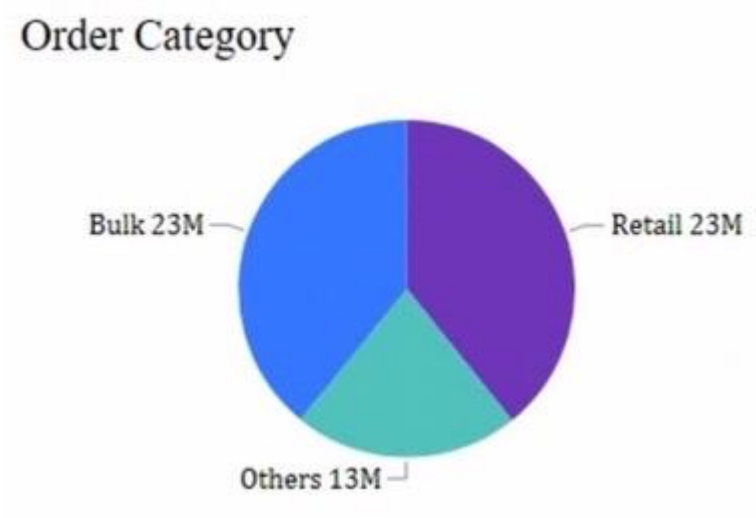

Figure 1.2.1

Orders received this year peaked mainly under the above categories, including some miscellaneous orders. As a company known for manufacturing unlabelled products, major shares in this order have been distributed to wholesalers in bulk and retail consumers trading under their own brand names. Out of which only a few product categories have registered to be successful due to there clothing materials and there production techniques .

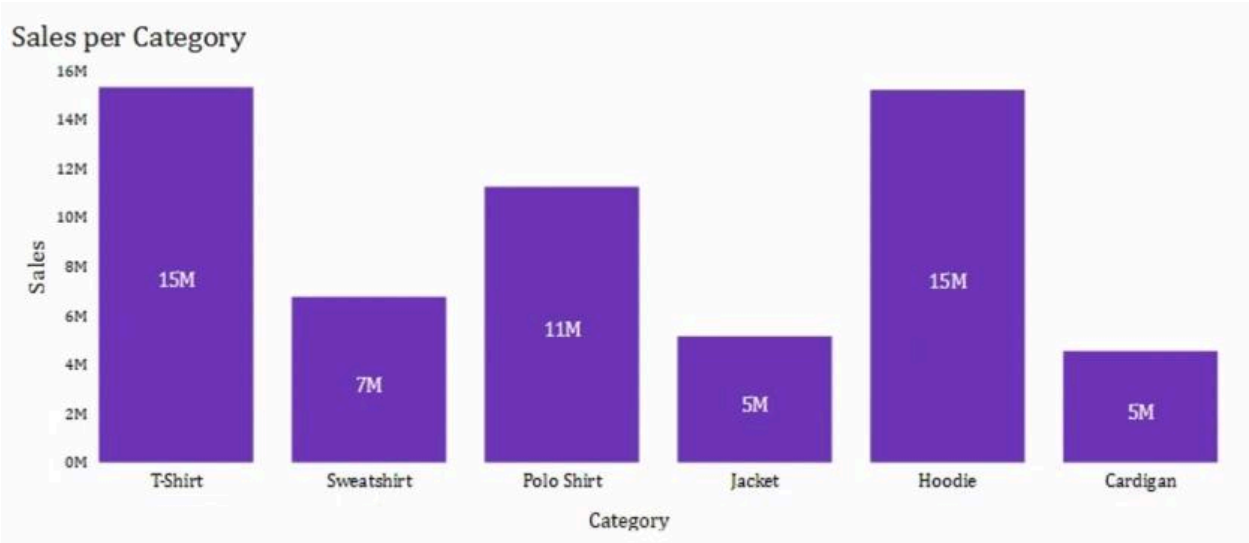

Figure 1.2.2

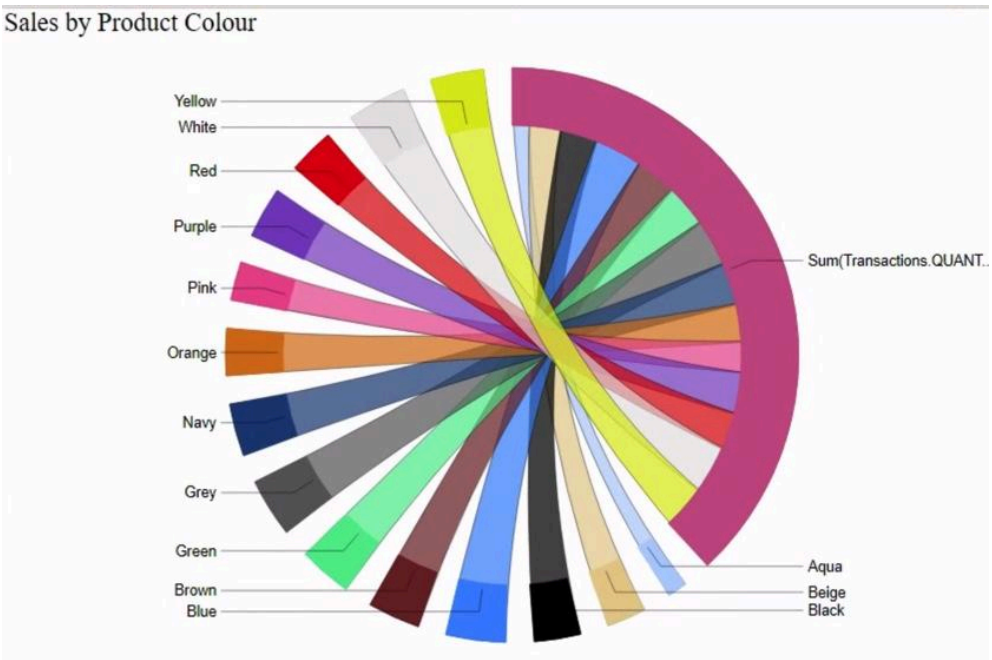

Figure 1.2.3

Hoodies and T-shirts being our best selling products have originated us in making massive sales this year. T-shirts being produced with the help of multi-functional F2C 5-in-1 Pro Heat Press machine by the brushed cotton material , manufacturing 5 different shirts at an instance enduring, unique colour, making it suitable for all conditions and situations . Maximisation in sales of hoodies this year due to the use of fleece material which outcasts cotton in keeping

warm even in heavy windy conditions and as a wave of new streetwear fashion such products are in demand when merged with graphics to be suitable over the year irrespective of the climatic conditions .

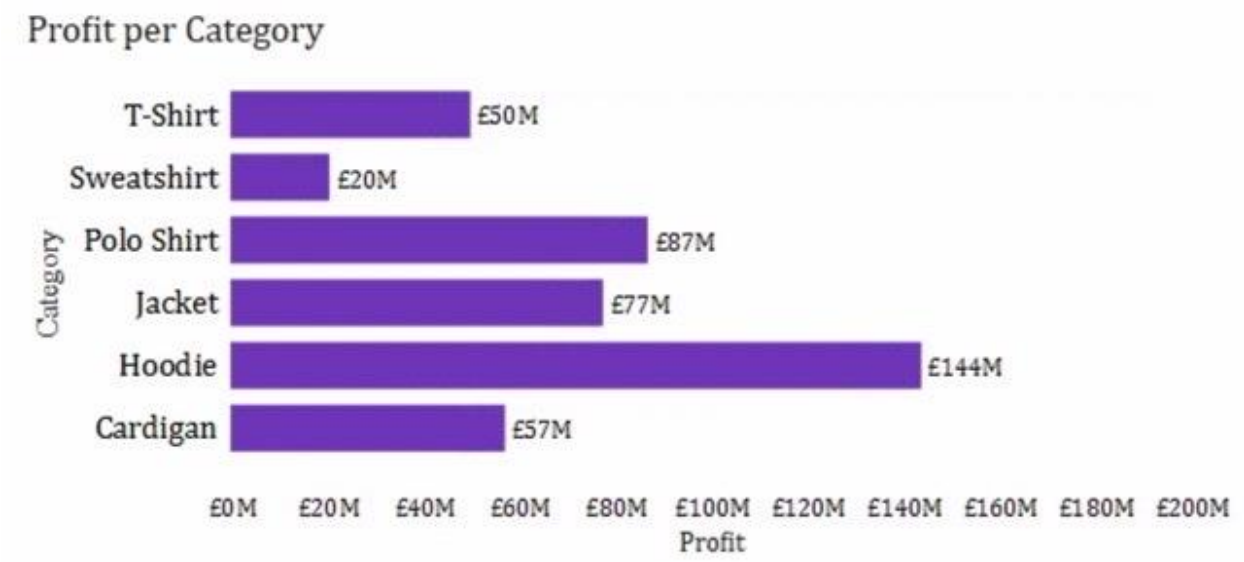

Figure 1.2.4

Figure 1.2.5

As per the new techniques established for specific product categories and deployment of new material to manufacture these products, hoodies registered the maximum revenue, due to its high selling price and ability to meet the demands of the order (Xiao,2010). Shirts lagged in generating ample revenue to the companies' profit, specifying less fabrication cost, but helped to recover the debts it caused during the past two years. As a result of last year's embedding advertisements being telecasted by popular artists influenced the purchase of Sunlight V1 jackets branded under different names to make it our most profitable product for the year 2022.

Figure 1.2.6

Global Sales

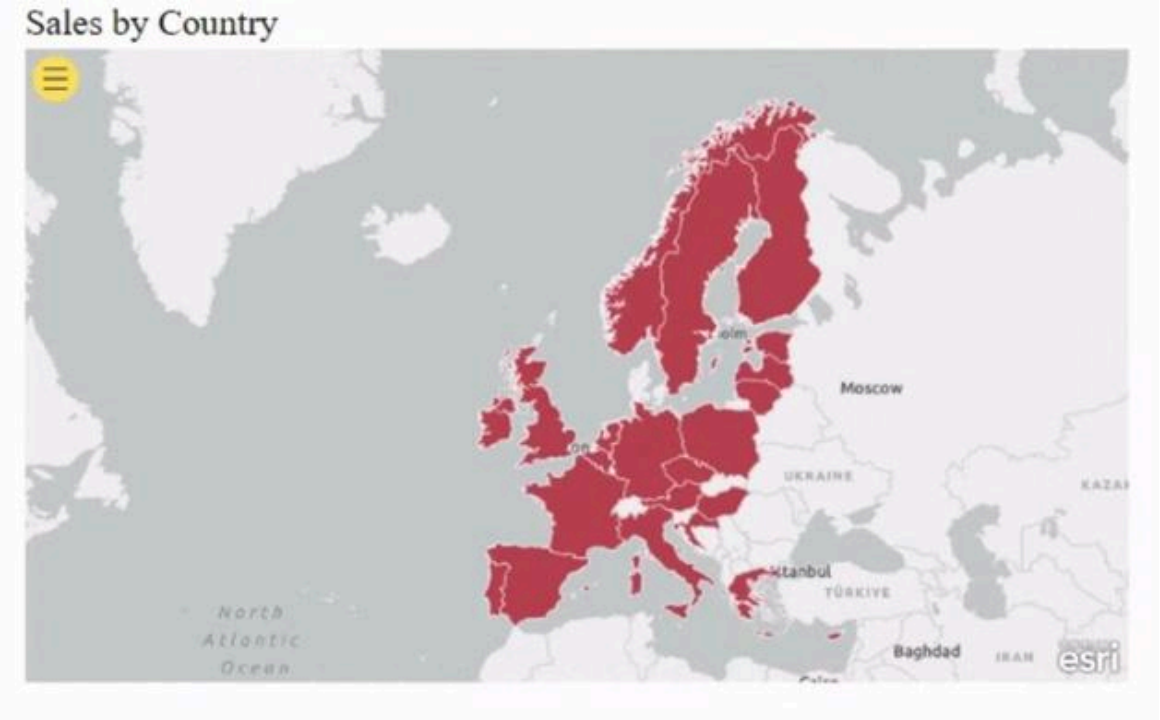

Figure 1.3.1

At Universal Export, we aim to make the globe familiar with our products and till now have been successful in capturing the Western European Market. Products that manufacture here try to reach out to the world, making every individual define their style by our colours and products (Goodwin,2011). Acting to this, in the year 2022 we reached to around 22 countries, including the United Kingdom .

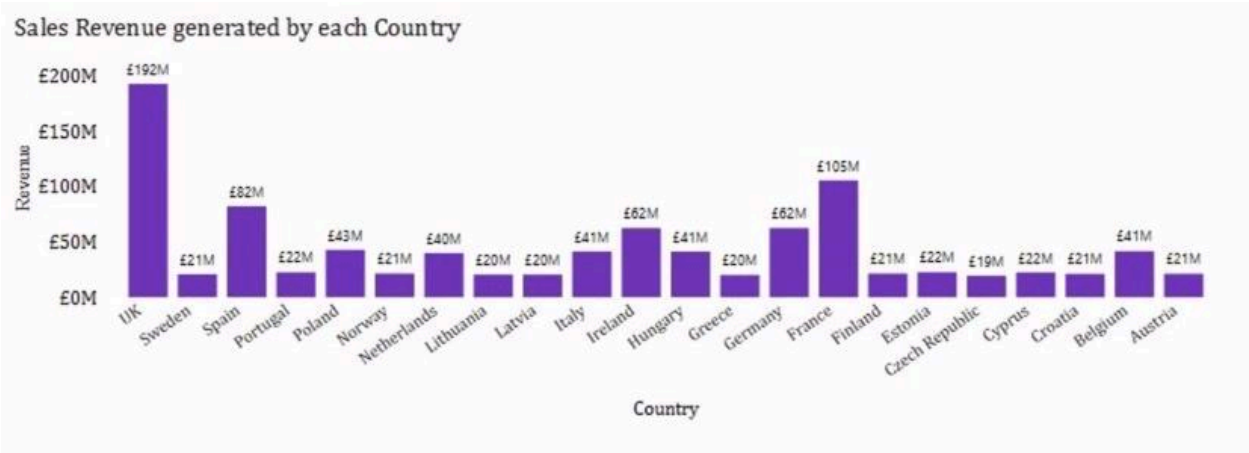

Figure 1.3.2

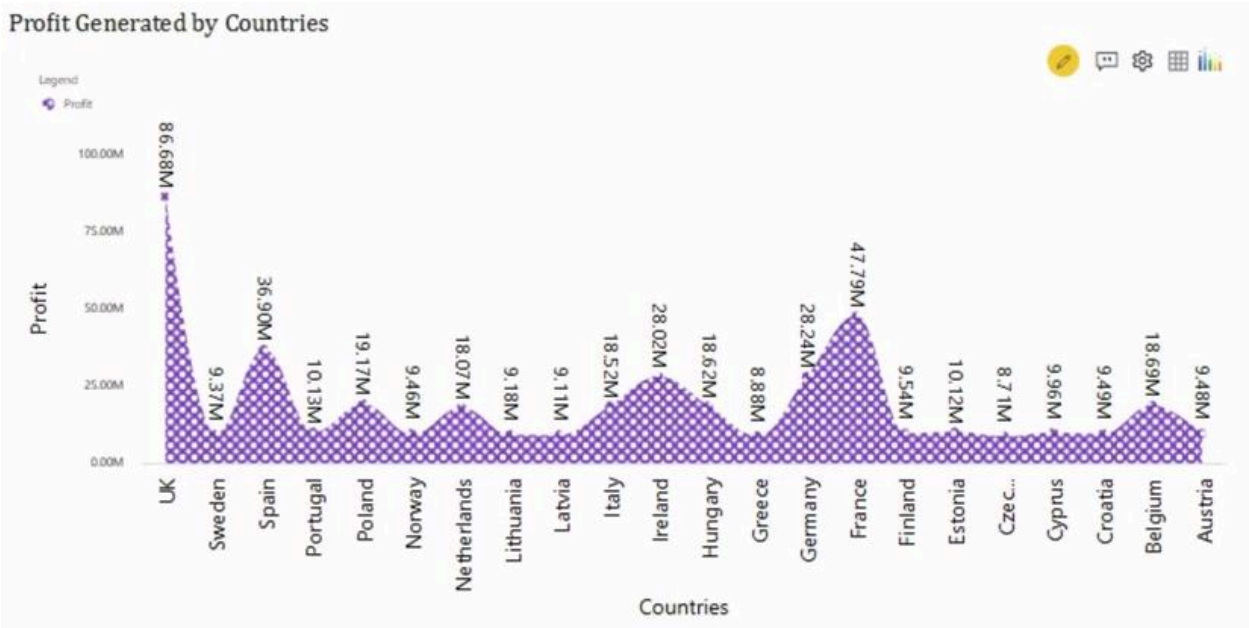

Figure 1.3.3

As discussed earlier, this year as repercussions of various calamities and imposition of various regulations the focus of exports functioned within the country generating maximum sales and profit followed by the neighbouring countries such as France , Ireland ,and Spain which provided an ease of transport for the goods . Due to heavy impositions of taxes and strict abandons on

transports intruded from the government due to increase in cases of COVID-19 during the first quarter of the year, followed by fall of regime in the next and recession in the last quarter of the year conceded us in making less sales across countries that are at a larger distance from United Kingdom.

Logistic Details

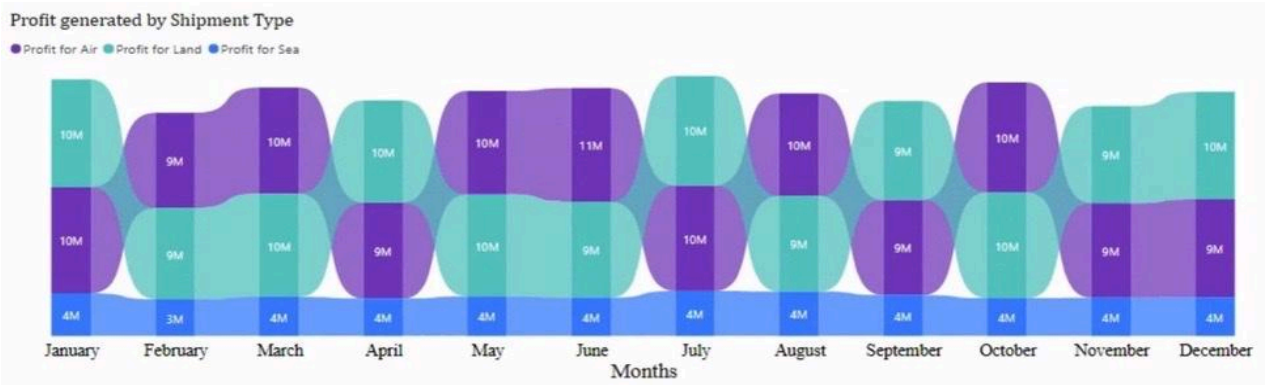

Figure 1.4.1

At Universal Export, we care about your clients and their orders, taking full caution of packages being distributed to our respective consumers in a safe and prosperous manner. For this, we partner with the best logistic companies who take full responsibility for our orders being transported promptly by various means . Being situated at the shore our yearly exports through waters were constant throughout the year . The Air and Land transports fluctuated in this period but conveyed us the maximum profit as compared to the other means.

Figure 1.4.2

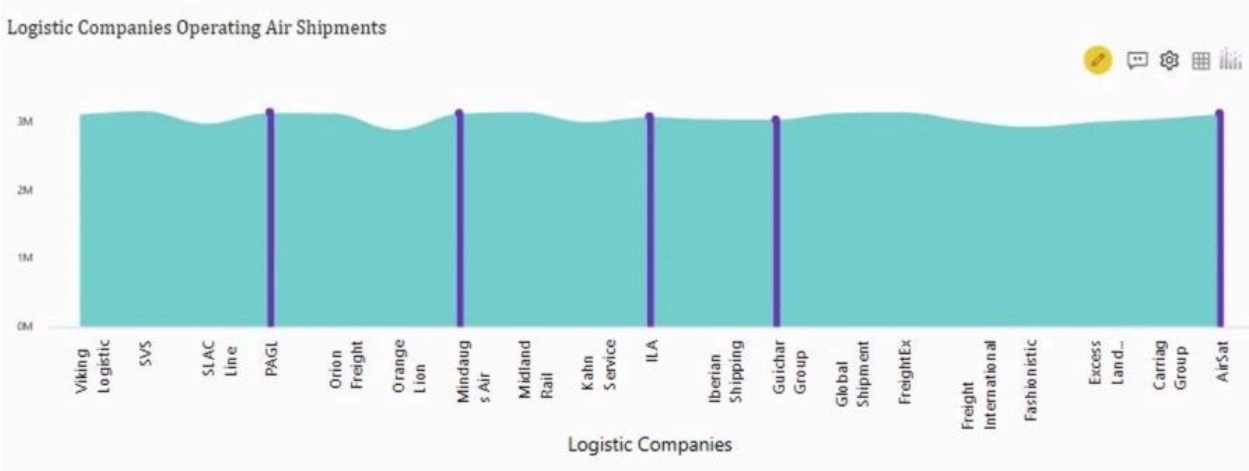

Figure 1.4.3

As a part of sustainable commitment, in June 2022 we launched the Code of Conduct for the "Go Sustainable Movement" making sustainability a cohesive part of global business and working closely with our partners to achieve enduring effect across our entire value chain (Seuring , 2008). Admiring to this, we try to reduce the number of Air shipments for our orders from July 1st 2022. As a result of this, now only 5 out of 7 Air transport companies are carrying our air shipments to specific locations , which shall be reduced in the forthcoming year.

Conclusion

For the financial year 2022, Universal Export registered a revenue of 963 M and generated a profit of 434 M for 58 M sales engraving all the previous debts. Major captive income coming from the United Kingdom and its neighbouring countries earning around 51% of the income. Installation of new production techniques increased our sales by 30% over 22 different countries , making Hoodies as the highest sold and profitable category. With excessive investment in advertisements of products, ramified Sunlight V1 bomber jackets and military jackets as our most profitable products with a margin of 12% stakes over other products. Adoption of sustainability , helped us not only in using renewable energy but reducing the number of air shipments from July 2022, which showed no plums in customer satisfaction maintaining a stable level of profit margin over the year. We are also delighted to disclose that we have covered all the losses and debts that were formalised in the past two years due to different calamities . We Promise, to deliver our services across the globe aiming to achieve a target of 1.5Bn of revenue by 2023 maintaining the Sustainability ,durability, and Quality of the products manufactured and exported . Proclaiming , Universal Export will always care for our Products, Shareholders, Workers, Staff members and Clients .

Universal Export

Internal Report

Sales Performance Report

Sales performance this year at Universal Export showed a drastic improvement as measured to the last two years affected by calamities . In 2022, Sales team showcased their capabilities by making a sales of 58 M across various countries increasing the profit margin by 10% from the previous performances, even after the disastrous strikes of post COVID-19 era, government incompliance and many more internal effects caused due to companies incompatibilities within the management. The team of 22 people signified their best performance to sell our 108 products over 48 customers across 22 countries in the European continent, including the acquisition of four new customers that joined hands with Universal Export to induce our goods. Originating from different cultures and backgrounds, employees have shown their best execution in attracting and maintaining a healthy relations with our clients , to make a sales revenue of £963 M annually with their proficiency and experiences. They have been successful in adding Norway as one of our allies, making huge exports in the year 2022, as Norway never imported our goods even after investing a lot into their advertisement process. Appending Norway in the list of our importers , the sales team have helped us achieve the spot of being one of the top exporters of retail in the United Kingdom hosting a control over the Western Europe .

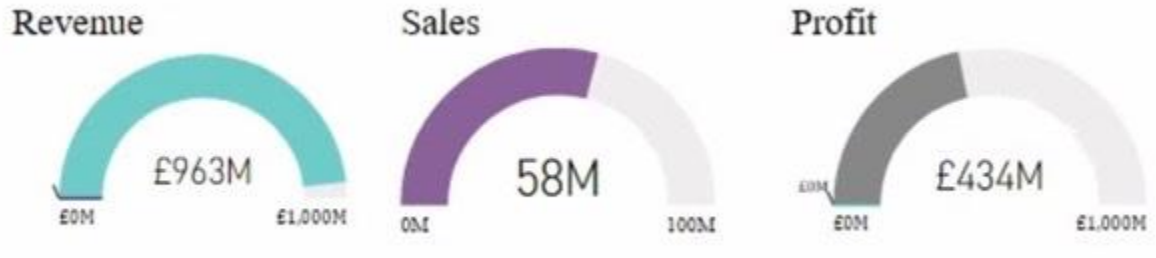

Figure 2.1

Sales and Revenue Generated by Employees

Figure 2.1.1

In 2022, the sales team appealed to attract and sell the products to utmost both old and new clients. Having a year of impactful strikes, the team has alleged individual contribution to the company's standards by making a sales of 58M which helped us generate a revenue of £963 M annually . With so many varieties of products to sell, Sales Employee ID number 22 succeeded in bringing around 12.9% sales of the company's revenue , which was deemed to be highest in comparison to other employees.

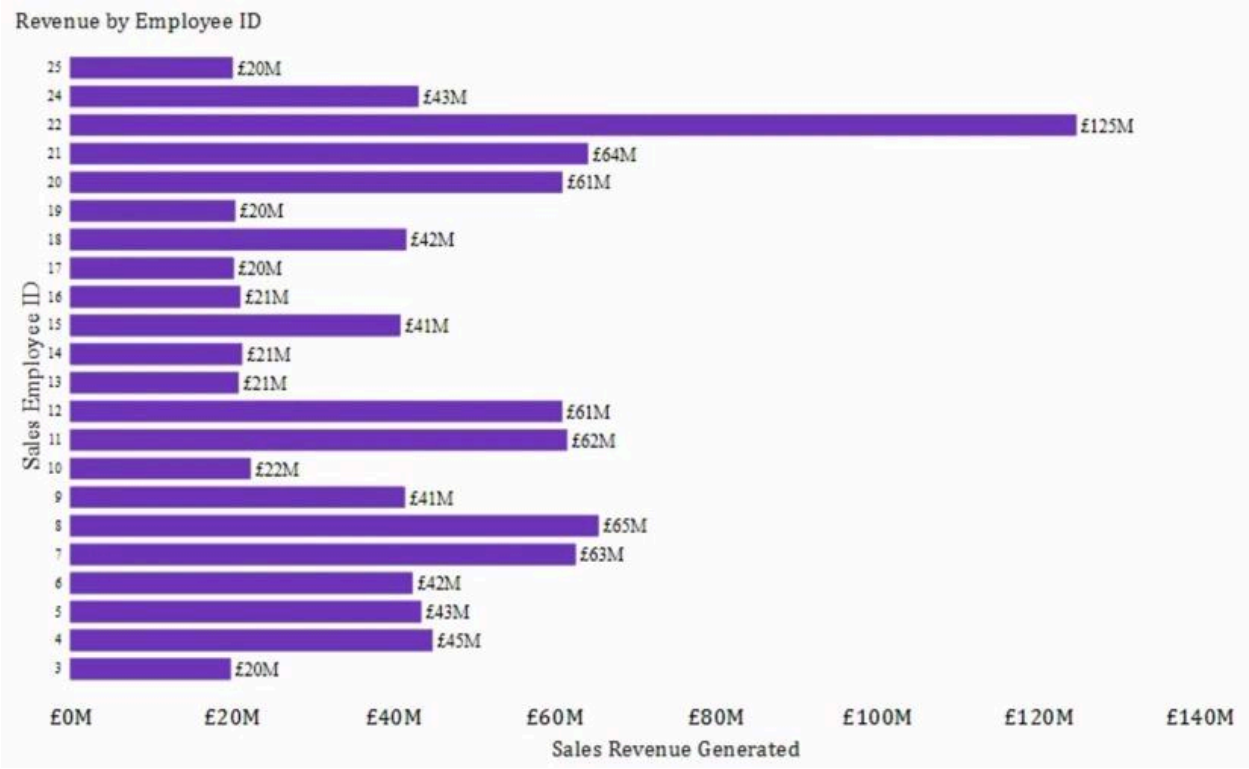

Figure 2.1.2

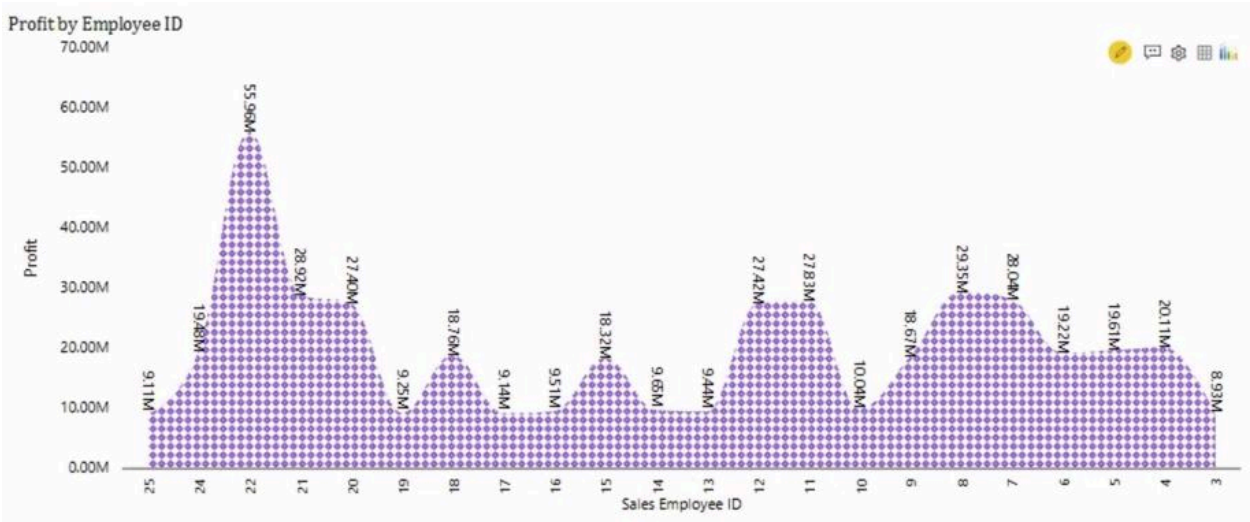

Figure 2.1.3

Highest gross profit and sales for the company were accounted by our most experienced employees having an average of 17 years of experience in the field of sales. Most of them bearing just an undergraduate degree and originating from European countries. This year in 2022, mark of margin steeped to £43.5 M revenue per Sales Employee at Universal Export increasing by 11% compared to last few years. Having a year of impactful strikes, the team have self-portrayed their individual contribution to the company's standards.

Sales Team Accomplishments

Figure 2.2.1

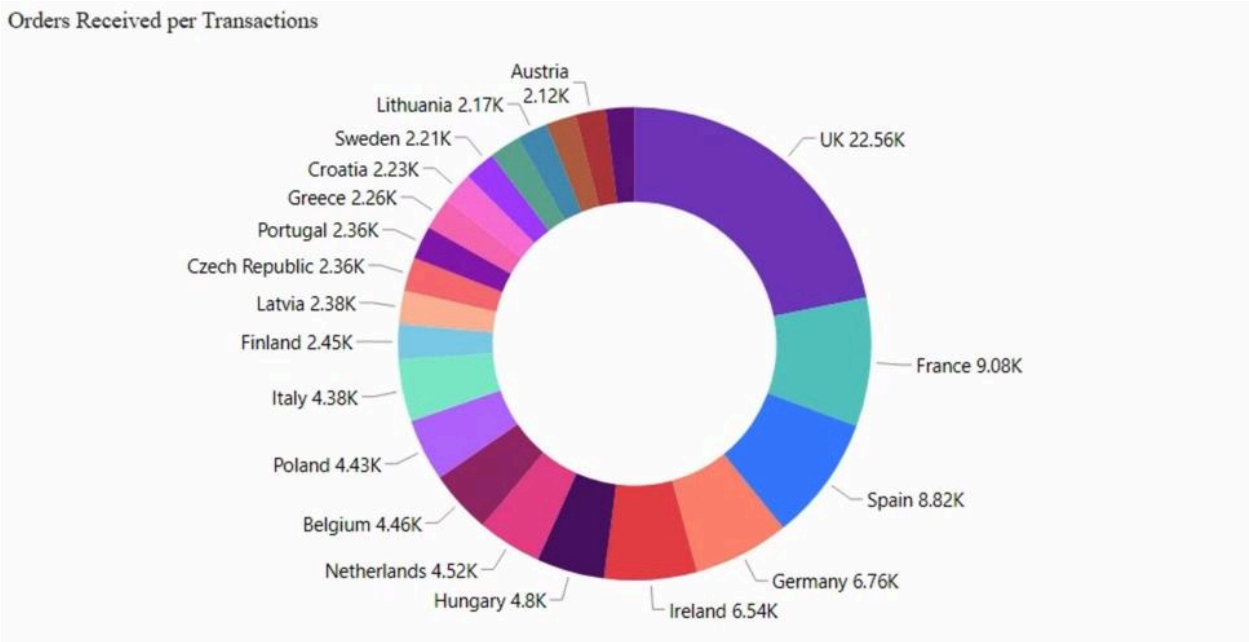

Figure 2.2.2

All of your measured sales were bound to be in the Western European region. Sales team has been successful in receiving and fulfilling this order, as demanded by their forecasts. Orders and transactions distributed over the region resulted in acquisition of 4 new customers to the list bringing ample amount of fortune and increasing the list of customers to 48 .

4	Undergraduate Degree	Male	43	France

Figure 2.2.7

Diversity in employee origin specified their ability to acquiesce new customers into the list (Marsdeen,1999). From a team of 22 employees, 4 were capable of captivating new consumers. Out of this, only Employee ID number 4, 9 and 12 were successful in making sales to their new consumers. Apart from this, all our sales employees were productive in retaining their old customers and maintaining their transactions, helping the company reform from the loss caused by individual orders over the last two years .

Figure 2.2.8

Out of all the Sales ,this year Sales employee ID number 9 was successful in attracting the customers from Norway which was once known as a black spot for Universal Exports on our list which showed no signs of imports before 2022, even after a lot of practice of advertisements over the country . This resulted , Universal Export in authorising the business flow all over the Western Europe and making it one of the largest exporters in the country.

Profit Margin and Profitable Products

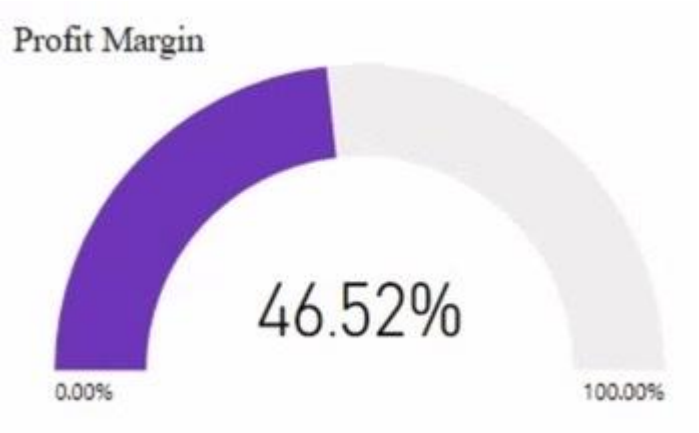

Figure 2.3.1

Figure 2.3.2

Products at Universal Export have their own definition , but are well pronounced when defined by people who really put an value to it. This year the sales team have catalogued the best figures in marginal profit of 46.52% which nearly increased by 7 % in comparison to previous making it one of the best figures . Hoodies set the highest limit for other product categories making an immense profit margin of 52%, but lagged in making its descent the highest individual products. As a result of impeccable marketing and advertising by your team (Intagliata,2000) , Sunlight V1 Jacket and Military Jackets spanned other products in becoming our most profitable products for the year 2022.

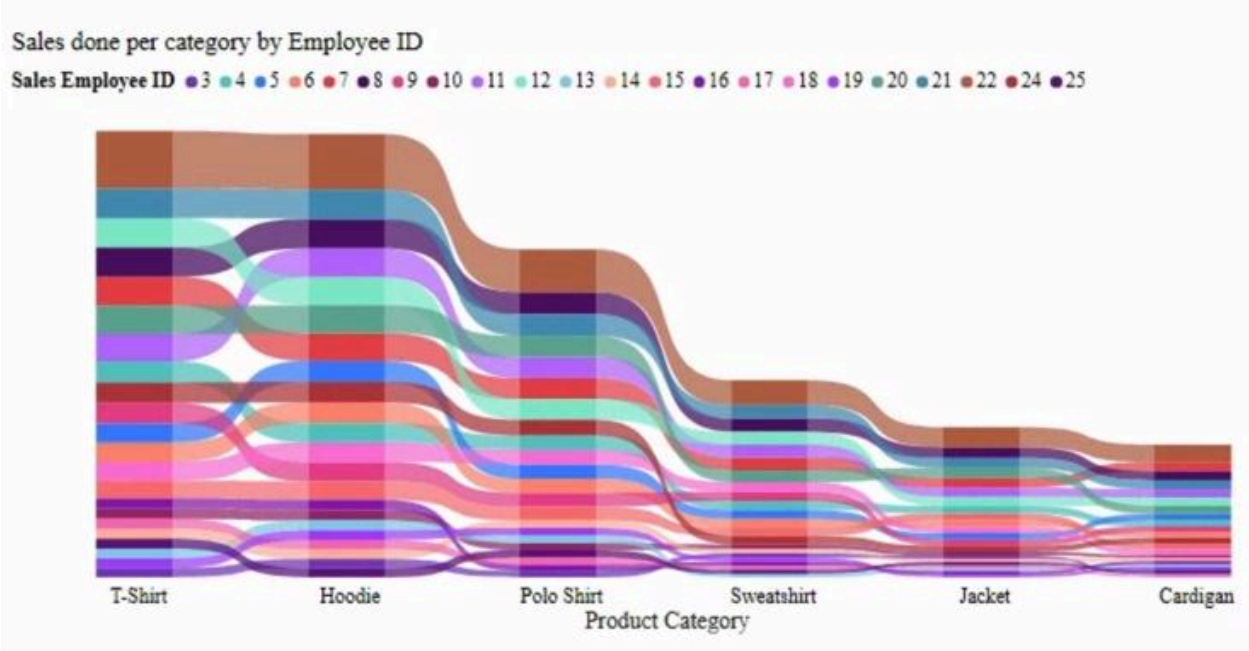

Figure 2.3.3

Figure 2.3.4

Figure 2.3.5

Figure 2.3.6

Sales employees encountered there best in operations to sell every product falling under this category . Sales Employee ID 22 and 21 portrayed there best performance in the past few years by making the highest numbers of sale in all the categories . As profitable products are being considered , the inclusion of new techniques in production and the vigorous minds of Sales Employee IDs 21 and 22 behind the marketing strategies of this product earned us immense sales revenue . The risk factor tangled by producing and marketing of this products somewhere helped the company place itself in a higher position as compared to our nemesis.

Conclusion

Sales performance at Universal Export has gradually thrived as compared to the past two years making a gross sales of 58M generating a revenue of £963M . This can only be measured as the efforts called by our Sales Employees . Learning from there experiences , Sales Employee ID number 22 outperformed all the other employees in the team by making the highest sales in the year 2022 by generating a revenue of £125 M to the companies income followed by Sales employee ID number 21,7 and 8 making half the sales of Employee ID 22. Apart from this Sales Employee ID 4, 9 and 20 showed immersive performance by attracting new customers in the list . Adding Norway to the list of importers at Universal Export , Sales Employee ID 9 helped us move into some top spots in the country, making us the largest exporter in the United Kingdom governing the Western Europe. The profit margin on the products clearly defines the sales acts by each Employee ID. Making a decision on promoting the respective Employees to the superior position in the Sales team , we suggest the management to have serious considerations on the points mentioned and the accomplishments of Employees on there performance.
